

Press Release

MAAG Group at the virtual show AICHEMA Pulse

Oberglatt, Switzerland, June 1, 2021 – MAAG Group is a broadly diversified global solutions provider of Pump & Filtration Systems, Pelletizing & Pulverizing Systems, Recycling Systems and Digitalization for use in the polymer industry.

For the first time, MAAG Group is represented on a virtual booth. With one click on www.achema.de you can meet us live at AICHEMA Pulse on June 15 and 16, 2021. At the trade show you can browse our booth and you can make appointments from the site to meet with our experts privately and at your convenience as of now till June 30, 2021.

Achema Pulse offers extensive opportunities for interaction: chat functions, live streams and video conferences enable live conversations with our experts. We will be talking about the following:

- The NEW FX and DX series are providing higher flexibility in terms of performance, reliability and dosing accuracy due to the innovative design. The gear design provides a better efficiency and the Quick cleaning series allow quick, easy and complete cleaning of the internal pump components without requiring disassembly of the flange from the drive system.
- Another amazing innovation in the market is the MAAG Brain, this NEW stand-alone monitoring system is a step forward in the world of Industry 4.0 and Internet of Things (IoT). The system has been developed to monitor pumps and ensure their maximum efficiency during the operation.
- Innovative high-performance pelletizing machines not only for the polymer industry including direct crystallization. Efficient systems for the production of biopolymers. Technology-based, optimized pellet shape up to micro pellets. Recycling systems with added value. Tools with significantly longer service life until knife change and/ or die plate grinding!
- Innovation in strand pelletizing: From lab size to Compounding/Masterbatch and large scale polymerization!

For more information on our products, visit www.maag.com.

About the MAAG Group

The MAAG Group is a broadly diversified global solutions provider with integrated and customizable systems in process technology for the polymer, chemical, petrochemical, pharmaceutical and food industries. Its Pump & Filtration Systems, Pelletizing & Pulverizing Systems, Recycling Systems and Digitalization divisions consolidate the many years of experience and in-depth know-how of the AUTOMATIK, ETTLINGER, GALA, MAAG, REDUCTION, SCHEER and XANTEC product brands. The MAAG Group currently employs over 1,100 people at production sites in Switzerland, Germany, Italy, the USA, and China. Additional sales and service centers in France, Malaysia, India, Thailand and Brazil ensure close attention to customers' needs. For more information visit www.maag.com.

The MAAG Group is a business unit of Pumps & Process Solutions, a segment of the Dover Corporation.
